

## **Teaching Reading Practices**

### **Program 1**

#### *Cooperative Reading*

Cooperative reading is a literature based reading instructional strategy that aims to equip and empower readers and motivate them to read. This program follows a class undertaking a cooperative reading session. Teachers comments are also included.

### **Program 2**

#### *Language Experience*

A teacher reads and directs activities associated with the book.

### **Program 3**

#### *Directed Silent Reading*

A teacher introduces a book to a group of children asking them to make predications from the text. Children respond and the teacher sets a directing question. The lesson proceeds from here with the children responding to the teachers directions and questions.

#### *Taking a Running record*

A teacher records a child's reading behaviours as they read aloud to the teacher.
