Leon Pericles, a renowned printmaker in Perth, faces his greatest challenge — the care of his wife Moira, who is living with dementia. This would be a full enough job, but Leon, at the same time, had to prepare a retrospective of his art work over the last fifty years. Their daughter Nia has made a film documenting the story; it's called Storm in a Teacup and it airs on ABC and iView.

Duration: 8min 53sec
